# FAZ

POTS BY RAMÓN ESTEVE

GARDEN  
SECRET

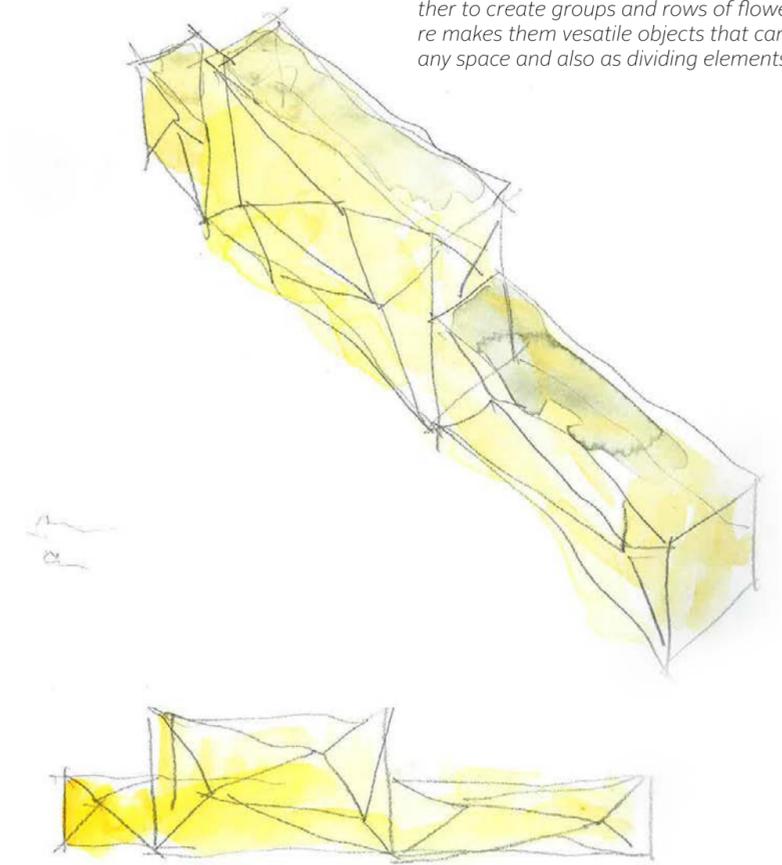

VONDOM

(inspiration)

*Pure geometry, in shapes of cubes and parallelepipeds, are fragmented creating faceted volumes. The result forms a setting in three different sizes. Their faceted sides, which are complementary, fit together to create groups and rows of flowerpots. This feature makes them versatile objects that can work perfectly in any space and also as dividing elements.*

# FRAME

CHAIR FOLDING BY RAMÓN ESTEVE

(inspiration)

*The Frame Folding chair, made of injected polypropylene, is incorporated to the collection, characterized by its Cartesian geometry.*

*The heart of the piece is its prismatic folding axel, which embedded in the nexus of the legs, finishes the piece converting a technical mechanism into an aesthetic claim.*

*With clean lines and great lightness it becomes a versatile piece perfect for indoor and outdoor. Its efficient storage is perfect for both commercial and residential projects.*

# VELA LIGHT

## CHAIRS BY RAMÓN ESTEVE (inspiration)

*Having a starting point the orthogonal geometry of the VELA Collection, Ramon Esteve created a chair, achieving balance between lightness and resistance.*

*The use of polyamide allows us to reduce to the minimum the section of its legs, without compromising the consistency of a structurally strong chair.*

*This synthesis work results in a chair which justifies all material used.*

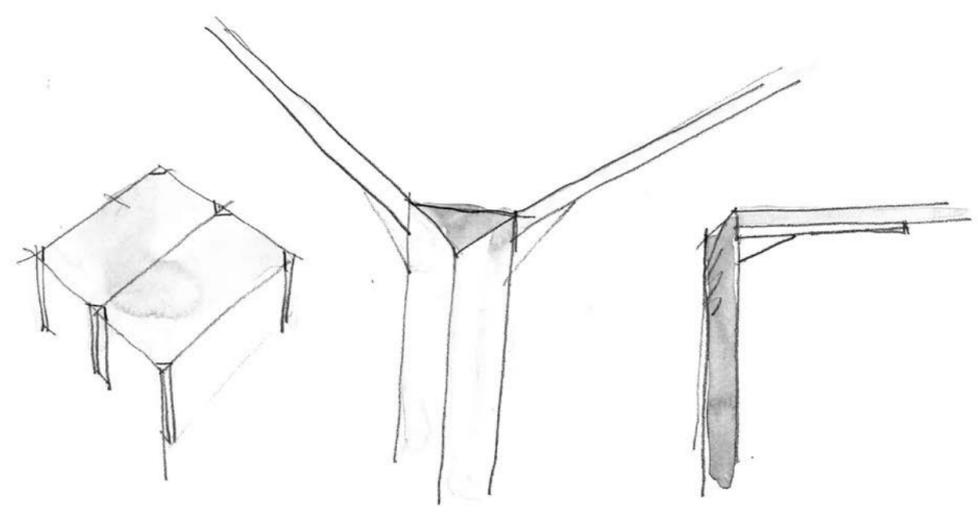

*The rectilinear composition of its frame is only disrupted by its ergonomic seat and backrest. This rigorous guideline makes VELA a chair with an optimal stackability and an excellent one to be used in all types of comercial spaces.*

LIGHT  
TABLE BY RAMÓN ESTEVE

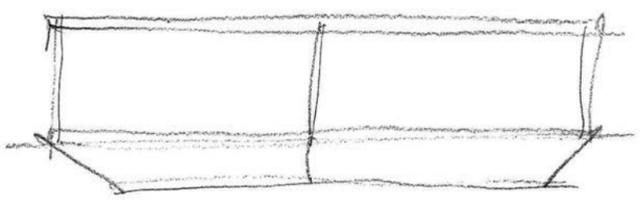

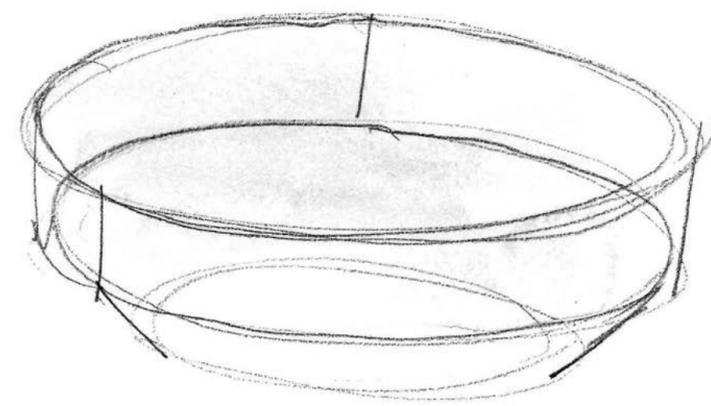

# VELA

## METAL & MARBLE TABLE BY RAMÓN ESTEVE

(inspiration)

*The Vela collection grows and evolves as an optimal system which began in 2010. Ramón Esteve designs these new tables for the Vondom's successful collection composed of a light metal structure and marble tops, following the collection's geometric style. The lightness of the new tables match the strength of the rest of the Vela collection, keeping the same proportions. The use of marble in this iconic collection presents a new future and renovation desire of sophistication for VONDOM.*

### TABLE TOP COLORS / COLORES DEL SOBRE

black marble

white marble

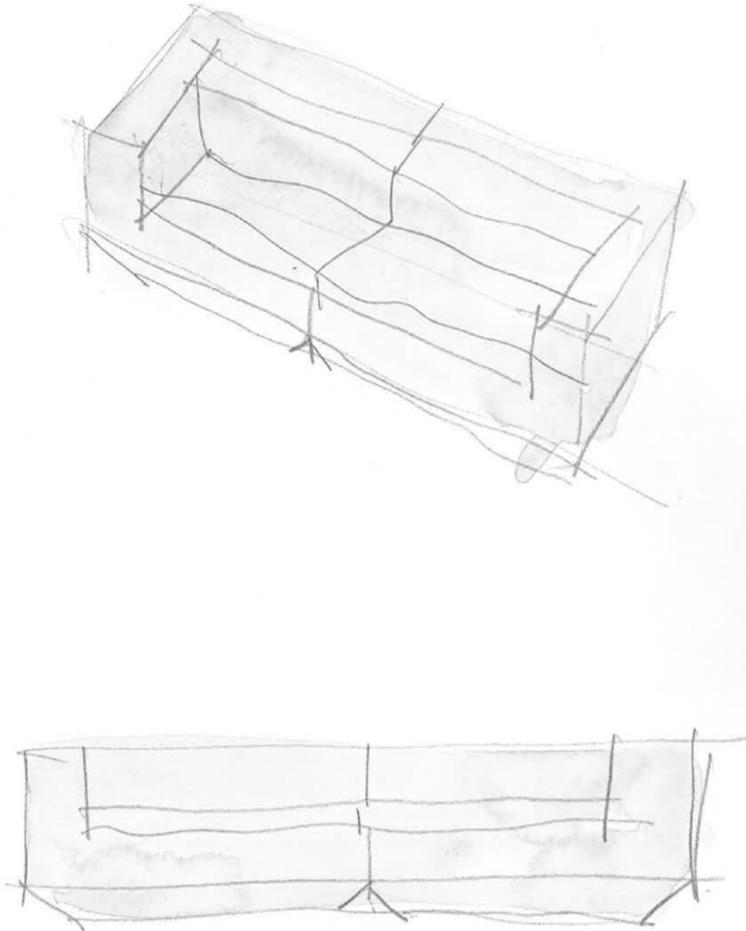

ecru marble

(inspiration)

*This extensive outdoor furniture and plantpot collection aims to offer the comfort and the quality of interior furniture without losing its original qualities. VELA is a modulate system with an elementary prismatic geometry that bases its singularity in the balance of its proportions. The elements can combine among themselves to integrate into any space. Their precise volumes create the illusion of hovering some centimetres off the floor, and when they are illuminated they are transformed into floating architectures.*

# VELA

SOFA BY RAMÓN ESTEVE

# VELA

SOFA BY RAMÓN ESTEVE

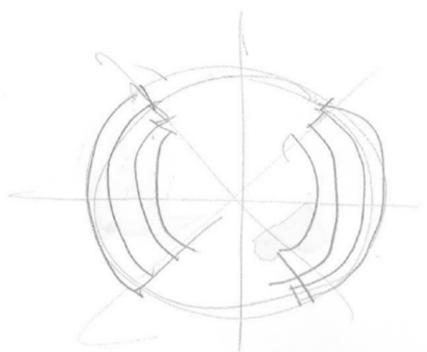

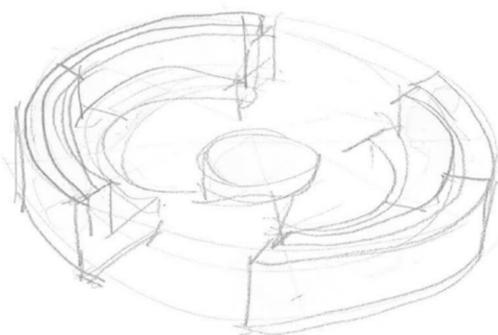

(inspiration)

The Vela outdoor collection offers all the comfort and warmth as an indoor collection, but without losing any of its original qualities. Among this family full of style designs, we can find the new round modular sofa, designed by Ramon Esteve under the same aesthetics as the other products in the collection.

A modular structure with differentiating and innovative elements, bringing new solutions to the layouts and infinite configurations possible. Its round shape, in different configurations, makes it perfect to bring style and comfort to spaces for leisure, meetings or events.

Pure geometry brings stability to the design and its corner frame gives a touch of lightness, raising it from the floor and offering an image of harmony and elegance.

The Vela collection offers a full range with tables, chairs, armchairs, modular sofas, stools, bar counters, sunloungers, planters and lamps. All these elements can be combined together, elaborating different compositions to furnish any space.

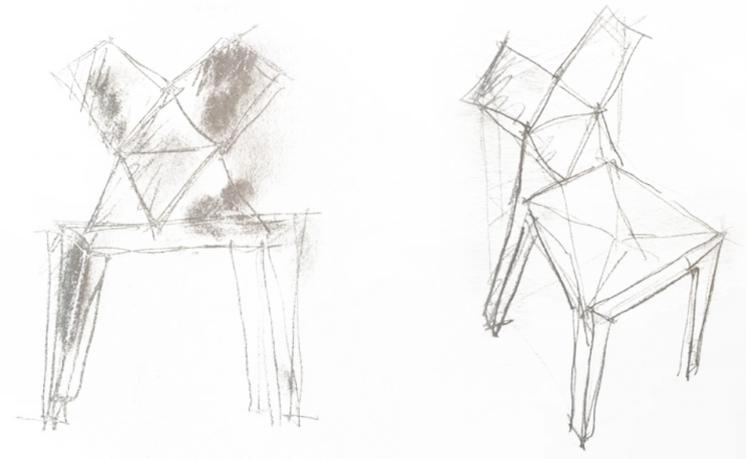

# KIMONO

CHAIR BY RAMON ESTEVE

(inspiration)

*Inspired by traditional Japanese costumes, the kimono chair follows the line of research faceted shapes combined with the transparency game made with polycarbonate.*

*It's geometry generates a series of highlights and transparencies reminding us of mineral formations. A design with character that, due to its materiality, connects in many spaces either contemporary or classic areas due to the conceptual contrast being stackable and light.*

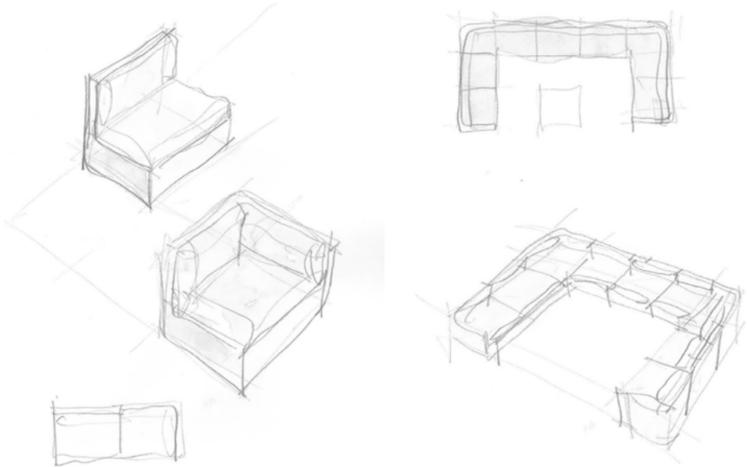

SOFA BY RAMÓN ESTEVE

# ULM

(inspiration)

*The new Ulm sectional sofa collection offers several possibilities, thus providing solutions to different settings.  
The sofa, like the rest of the collection, provides strong and resistant structures as support of the soft elements which provide total comfort.*

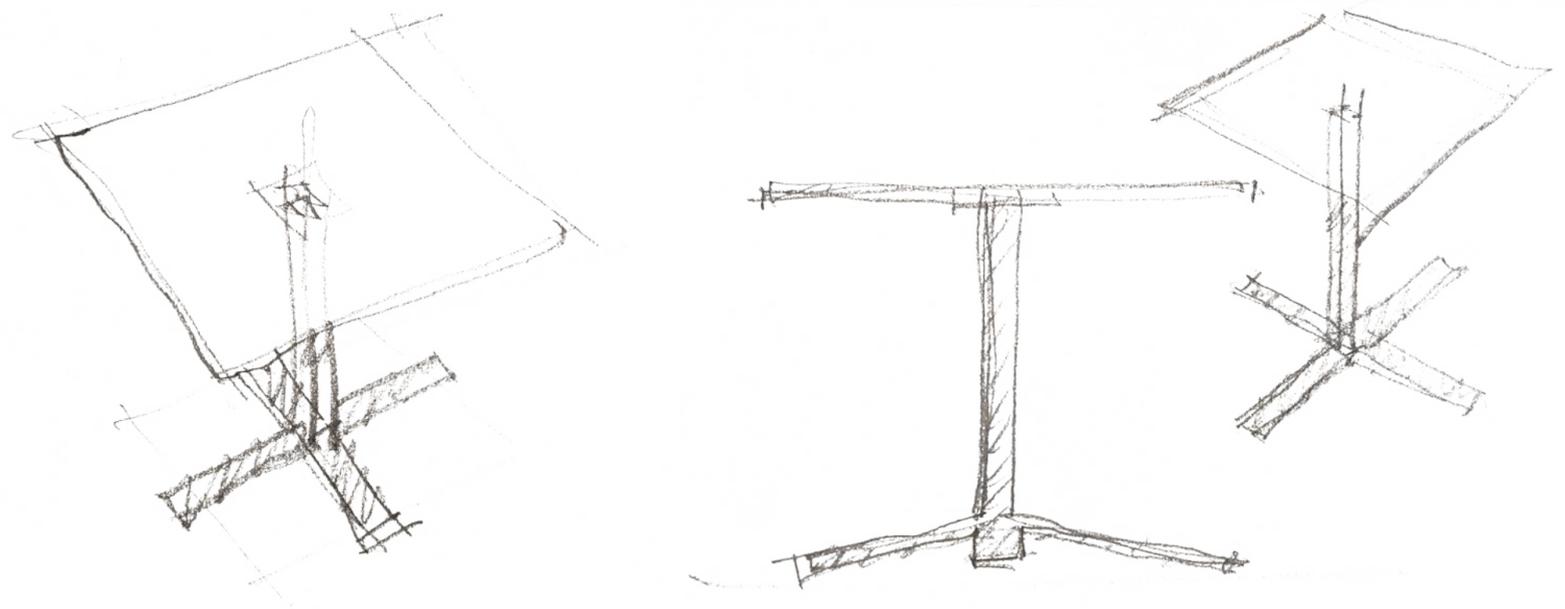

**RATIONAL  
PROPORTION**

# ULM

## TABLES BY RAMÓN ESTEVE (inspiration)

*Becoming a new member of the ULM family is a synthesis of the traditional yarn lamp. As a result is born a new simple volume -according to the language of its collection- but figurative at the same time, evoking a strong emotional connection between the object and its user.*

*Following the other items in the collection, the new lamp follows rational parameters by using only the essential and eliminating any redundancy. The final result is a flexible and easy to maintain design item.*

## METAL & MARBLE TABLE

BY RAMÓN ESTEVE

### (inspiration)

One of Vondom's youngest collections designed by Ramón Esteve grows with new elements, materials, and finishes. The tables base appears, through the use of a refined metal frame combining with the sophistication of marble surface, as a weightless design which follows the soft characteristics and forms of the ULM collection. Its recently introduced companion, ULM Sectional, finds an ally in the lightness of these tables that match perfectly and enhances its character. The incorporation of these coffee and side tables turns the ULM collection down a new path of discovery and refinement.

### TABLE TOP COLORS / COLORES DEL SOBRE

# ULM

DAYBED BY RAMÓN ESTEVE

(inspiration)

*As with the rest of the Collection, the new Ulm Daybed with backrest is designed with the bare essential qualities of utility and function in mind, discarding all superfluous elements. Its circular shape and grand scale adapt to each setting while its swivel feature allows you to effortlessly rotate it on its axis. The new pergola protects its interior while it's not in use, always providing a comfortable shade.*

# ULM LAMP

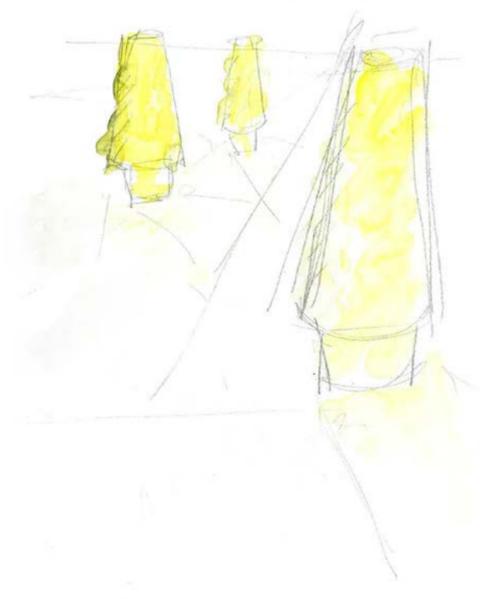

BY RAMÓN ESTEVE

### (inspiration)

*Becoming a new member of the ULM family is a synthesis of the traditional yarn lamp. As a result is born a new simple volume -according to the language of its collection- but figurative at the same time, evoking a strong emotional connection between the object and its user.*

*Following the other items in the collection, the new lamp follows rational parameterd by using only the essential and eliminating any redundancy. The final result is a flexible and easy to maintain design item.*

IBIZA CHAIR WITH ARMS

(inspiration)

*"After growing in beautiful terraces in the sunny Ibiza, surrounded by cane traditional chairs, I wanted to keep this memory in a solid frame for ever. From an ephemeral beauty of a season to aever lasting piece, to share it with the magic island."*

## CHOOSE THE RIGHT SIZE

Different heights, different table tops to set up your space. The Mari-Sol table comes in colours; white, black, steel, ecru, red, bronze, pistachio, sand, blue and mostaza.

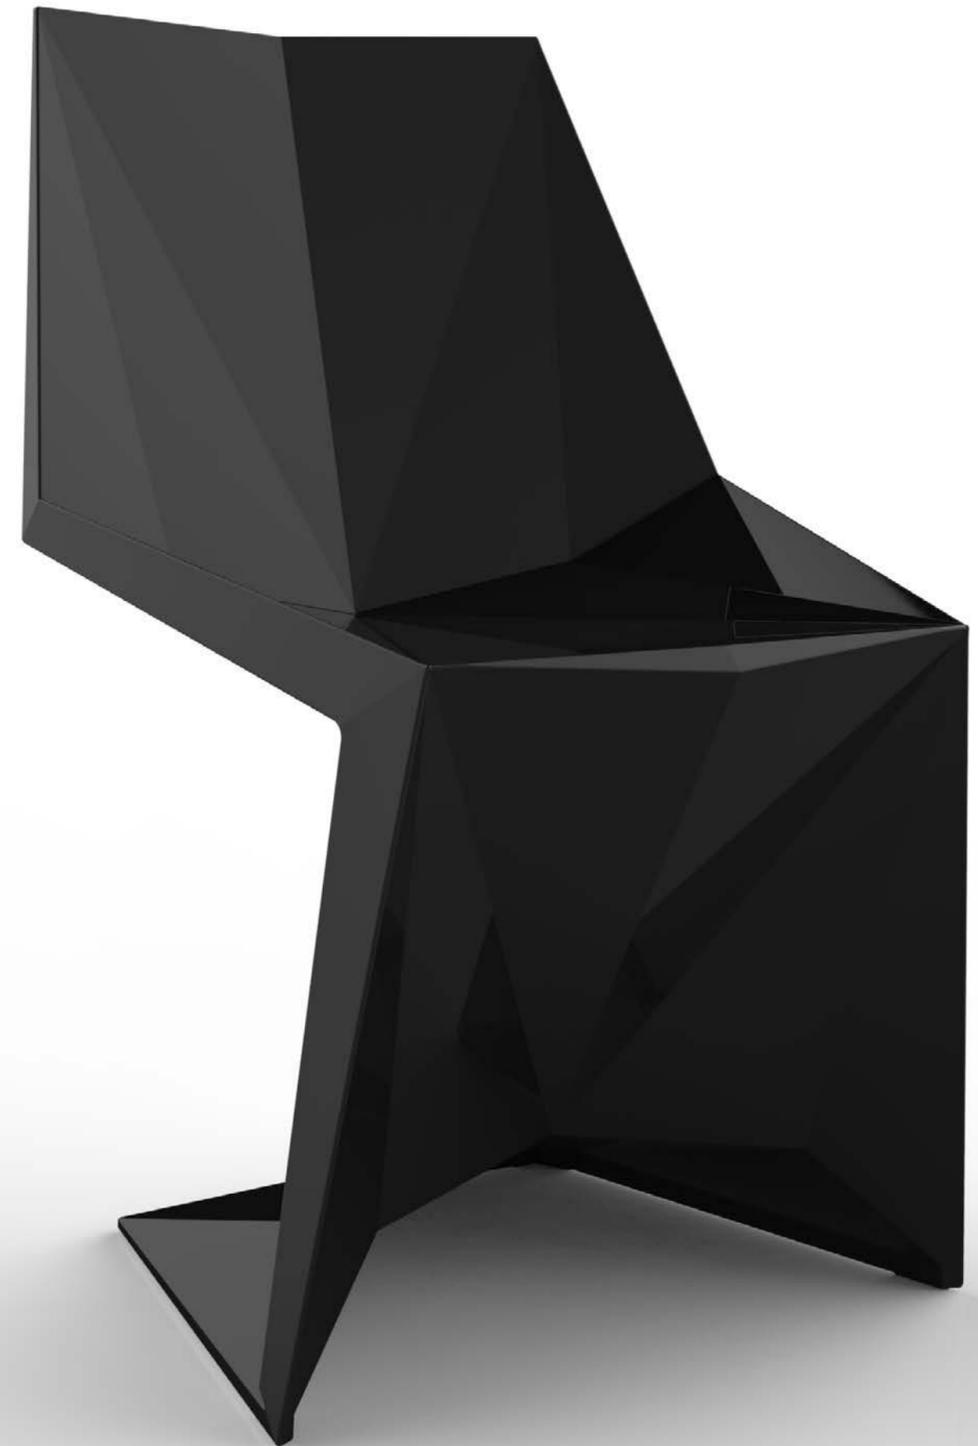

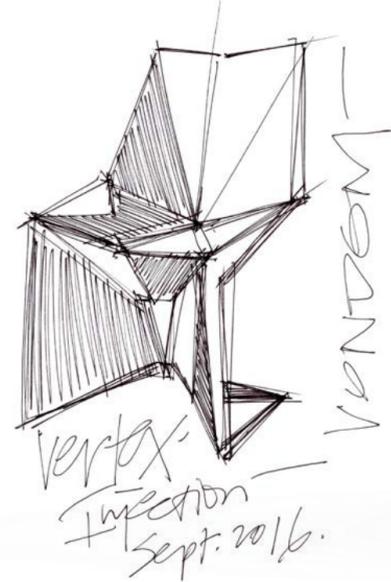

MARI-SOL, a table that combines technology in its function with sensuality in its shape. The answer for adorning terraces around the world. The table withstands the weather, the sea and the sun. It has different dimensions which allow it to adapt to any environment. It is collapsible, which makes it practical and ideal for interior or exterior places.

CHAIR BY KARIM RASHID

# VERTEX LIGHT

(inspiration)

The Voxel chair is a minimal simple yet voluminous mono-block stackable chair that is faceted just in the perfect places for comfort, just in the right angles for hyper-strength, imbuing the correct creases for beauty, and just the few merging and converging lines for purity.

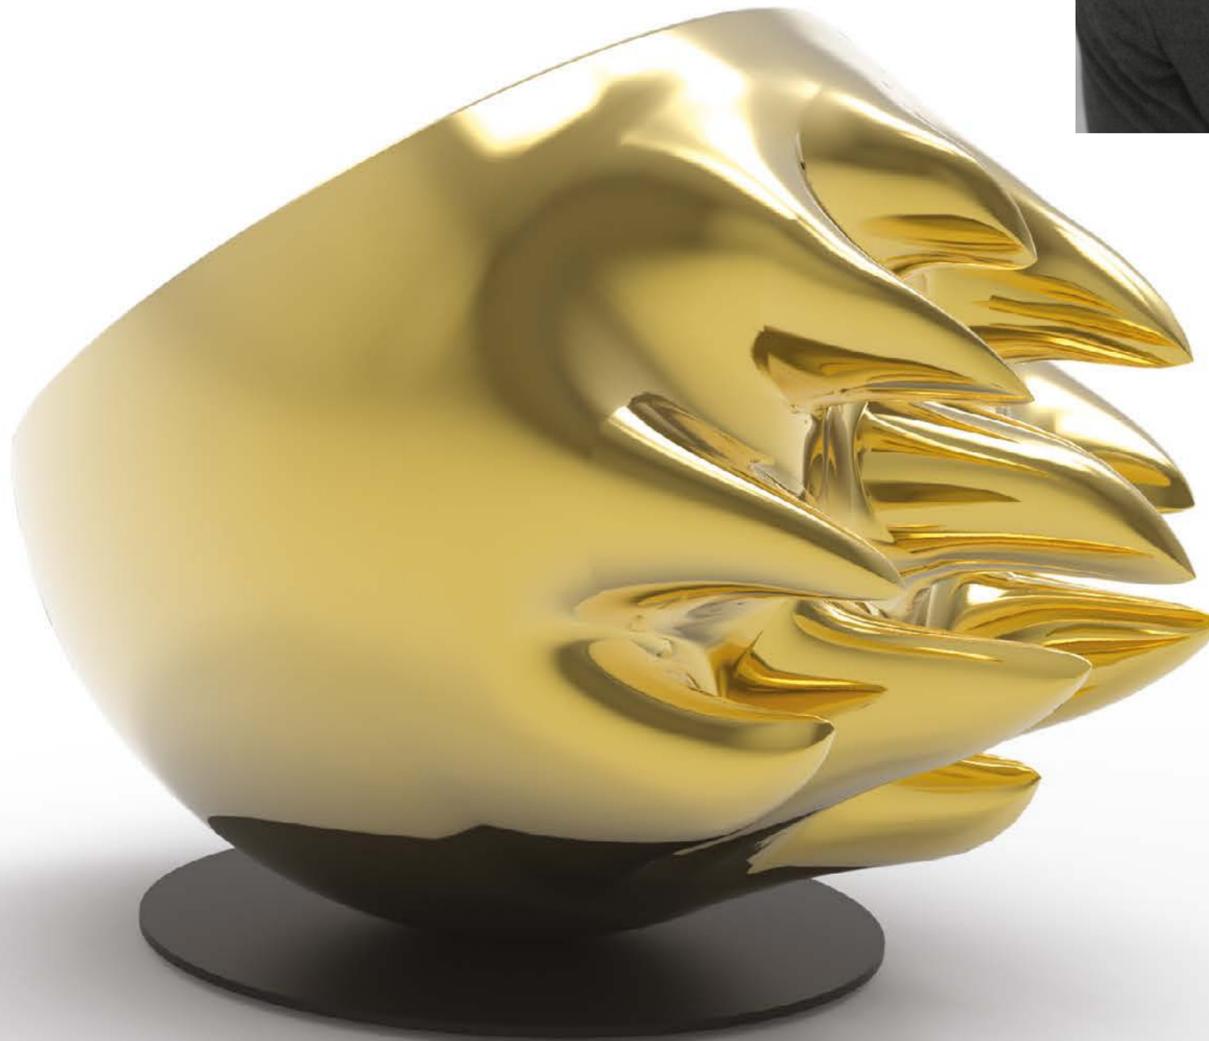

(inspiration)

Fireball is the connection of two symbols: the perfection of the sphere and the power of the fire purifiers. It's a meteor which has contact with the atmosphere, having the risk of disintegration to give us a bright light trail to those who pursue their dream.

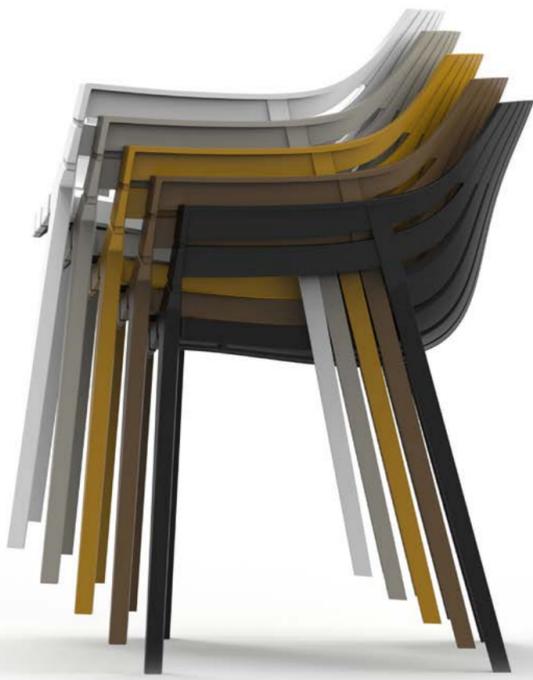

# FIREBALL

LOUNGE CHAIR BY FABIO NOVEMBRE

# SPRITZ

LOUNGE CHAIR BY ARCHIRIVOLTO DESIGN

(inspiration)

*Spritz armchair born from the proportions and the harmony of a shell, following the rules of the Italian style: proportion, simplicity and harmony. This comfortable and stackable chair is going to complete the Spritz collection, a perfect seating set for your summer dreams.*

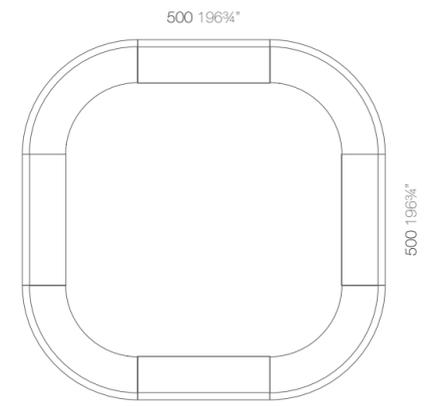

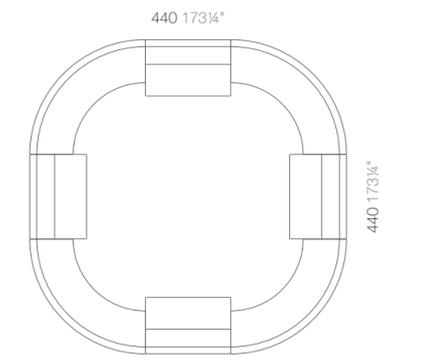

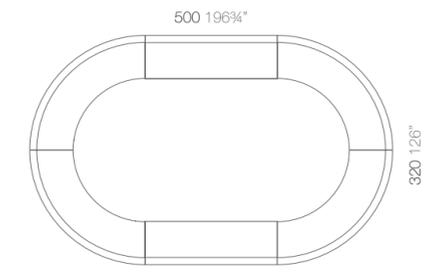

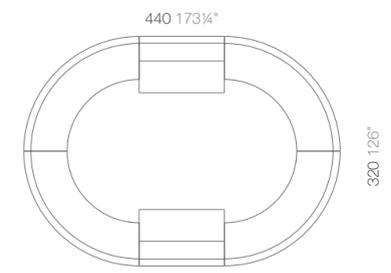

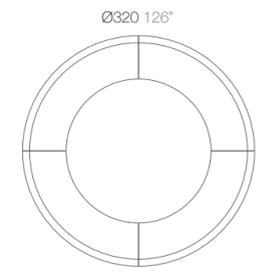

# FIESTA

COUNTER BY ARCHIRIVOLTO DESIGN  
(inspiration)

FIESTA, it's based on entertainment places like those we can enjoy in summer holidays, for example, the beach. The purpose of these entertainment places, along with their beauty and the incessant mobility of their waves, are what inspire the author of the FIESTA bar, with a simple and functional line, modular but also usable as a single piece. A bar like this reminds us the freedom with which we lived the joyful days of our youth, when beaches weren't covered with people until the last grain of sand, where we could play football without provoking anybody to anger. In fact one of the shapes it can form is the circle, the symbol of pureness, a recall to the ancestral shapes, devoid of useless frills. Nevertheless, a fiesta is not eternal, so what remains us to do is to keep it alive at least within ourselves, if only with the aid of a beautiful bar.

### CHOOSE YOUR RIGHT OPTION

# KES

CHAIRS BY GABRIELE + OSCAR BURATTI

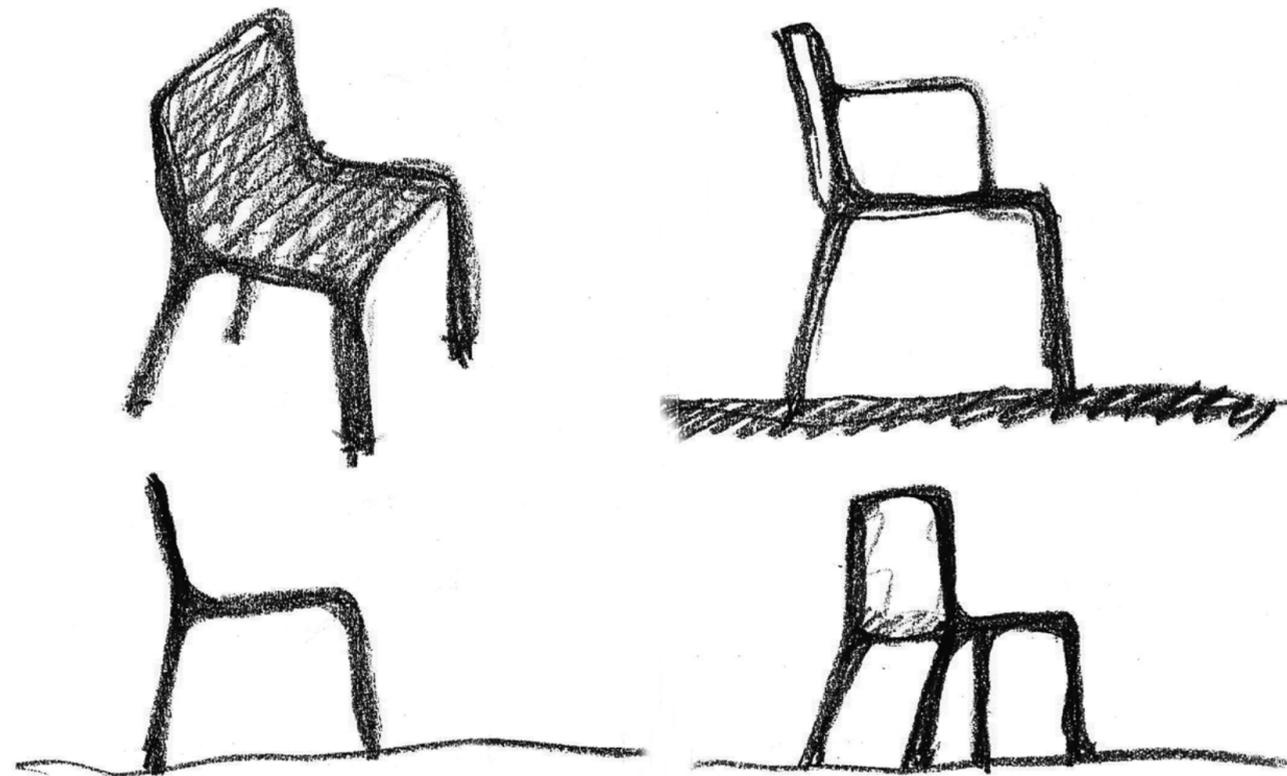

## (inspiration)

*With armrests and armless, lightweight and stackable, Kes is a chair with smooth lines, sweet, essential in shape and refined in design but radical in its simplicity.*

*Designed for indoor and outdoors, matte color finishing; easy to combine and cozy, it's suitable both for residential and commercial use.*

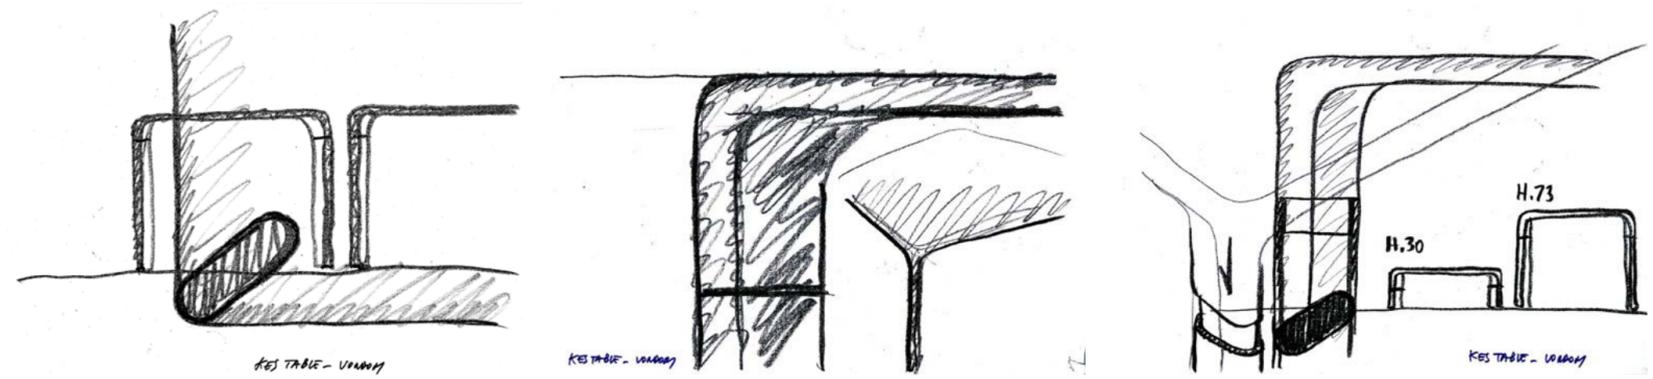

*We like to think that it will be the most beautiful chair, that will become popular and will last forever.*

(inspiration)

The KES' collection is completed with a table set: an archetypical and essential shape smoothed by the softness of the roundish sections.

The table top is made out of injected plastic and combined with lacquered aluminum legs in both highs, one as dining tables for restaurants and bars and coffee table for sofas in lounge spaces.
